Education

Full Stack Development
Prepleaf by Masai School
January 2024-present

BSc. Computer Science
Mumbai University
2018 - 2021

Technical Skills

JavaScript MongoDB
Express.js Node.js React
RESTful APIs Git Redux

Soft Skills

Problem Solving Teamwork
Adaptability Time Management

Achievements

Certificate of Appreciation
Tata Consultancy Services
In recognition of invaluable contribution as a part of the Internal IT IS Team.

Certifications

Technical Support Fundamentals.
Google

Karthik Acharya

Full Stack Web Developer

Professional Summary

Dynamic full-stack web developer with expertise in MERN stack, adept at leveraging JavaScript, React.js, and Node.js for seamless application integration. Fast learner skilled in generative AI, database optimization, and collaborative development. Committed to continuous improvement and excellence in web development.

Experience

- | | | |
|----------------------------------|----------------------|-----------------------------|
| Tata Consultancy Services | System Administrator | August 2021 - February 2023 |
|----------------------------------|----------------------|-----------------------------|
- Managed and troubleshooted server health and performance, ensuring minimal downtime and high availability for critical application servers.
 - Performed L1 level patching and troubleshooting for Windows and Linux systems, which included server diagnostics and corrective actions for system failures.
 - Effectively monitored application servers and managed user accounts, enhancing overall system security and operational efficiency.

Projects

- Wafair.com** [Live Demo Link](#) [Github Repo Link](#)
- JavaScript React Redux Git HTML5 CSS3
- Responsive Web Design
- Developed a Wayfair clone using React, Redux, and JSON for seamless shopping.
 - Implemented responsive user interfaces with Chakra UI and ensured proper routing between pages.
 - Built user authentication with login and signup processes for personalized experiences.

- Tata CLiQ Clone** [Live Demo Link](#) [Github Repo Link](#)
- JavaScript React HTML5 CSS3
- Responsive Web Design Git Node.js Express.js
- MongoDB Redux
- Implemented full-featured e-commerce website using the MERN stack, replicating Tata CLiQ's user experience.
 - Developed efficient server-side APIs with Node.js and Express.js for seamless backend functionality.
 - Created dynamic and responsive frontend using React.js and Chakra UI, ensuring optimal user interactions.
 - Integrated MongoDB for robust database management, optimizing queries for enhanced data retrieval.
 - Applied JWT and bcrypt for secure user authentication and authorization, enhancing application security.
